

 **BLIZZARD**[®]

ICE CONTROL

METER MATERIAL FLOW WITH THE ADJUSTABLE FEED GATE.

STEEL PINTLE CHAIN CONVEYOR and corrosion-resistant stainless steel housing combine proven design with industry-leading performance.

VARIABLE-SPEED CONTROL
Matches spread rate to conditions.
Available option on both models.

LP-10 TOP SCREEN OPTION
Included built-in bag ripper teeth.

LOW PROFILE DESIGN
Provides unobstructed rear view
from the vehicle cab.

CLASS IV TRAILER HITCH
For trucks with at least 1,000 lbs.
tongue rating, the receiver hitch
provides easy mounting and removal.

RUST-PROOF POLY SPINNER
Provides even distribution of ice
control material.

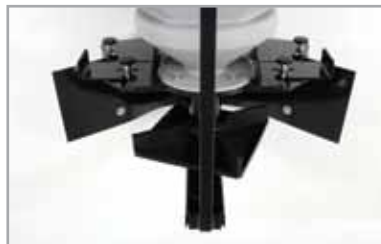

MODEL LP-8

- 8 cubic foot capacity
- Powder-coated steel auger and agitator
- Choose on-bumper mounting system, swing-away mount or receiver hitch mount

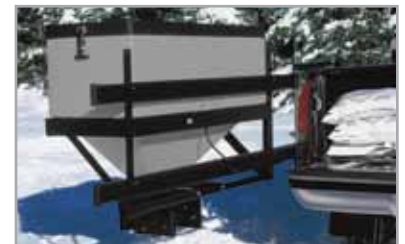

TAILGATE SPREADERS

Enhance ice control efficiency with a Blizzards tailgate spreader. Their low-profile design affords better rear visibility with the capacity to hold plenty of de-icing material. Built for top performance, they're simple to use and easy to transport and store.

- High-density polyethylene hopper and molded cover
- 1/3-HP, 12V hi-torque motor located in a sealed housing for corrosion protection
- Choice of in-cab "on/off" or variable-speed control

LP-10 ADJUSTABLE FEED GATE
Meters material flow to the spinner and provides material flow shut-off. Adjustable deflectors control spread pattern width.

LP-8 SWING-AWAY MOUNT OPTION
Optional dual swing-away mount allows the empty spreader to swing out of the way for easy access to the truck tailgate and bed.

ADVANCED ICE CONTROL TECHNOLOGY

Built on a heritage of industry-leading technology, BLIZZARD brings forward-thinking innovation to a new level in the next-generation ICE CHASER poly electric hopper spreader.

With a one-piece all-poly design, the ICE CHASER hopper is virtually maintenance free and delivers practical features designed to get you on and off the job faster and easier than ever before.

Available in 7- and 8-foot lengths, with 1.5-, 1.8- and 2.5-cubic yard capacities, there's an ICE CHASER just right for you.

Additional features:

- Center High-Mounted Stop Light (CHMSL) is standard to meet FMVSS requirements
- Built-in tie-down loops for strapping unit to truck
- Chute housing includes molded alternate license plate area
- Includes an accessory wire for optional work light

Options include:

- Inverted-Vee kit to reduce heavy drive train start-up loads
- Work Light kit provides better night-time visibility to the rear of the spreader
- License Plate Light kit illuminates alternate license plate area
- Vibrator kit helps remove stubborn materials

STAND THE UNIT ON END FOR EASY SPACE-SAVING STORAGE.

Support blocks (not shown) required for off-vehicle storage.

DUAL ELECTRIC CONVEYOR AND SPINNER MOTORS

perform independently, allowing you to adjust the ratio of material delivery to spinner speed for complete spread pattern control.

THE EXCLUSIVE SPINNER CHUTE ASSEMBLY

is height adjustable to fit both flatbeds and pickups. The assembly features a rust-proof 15-½" poly spinner and is removable for off-season storage.

OVERLAPPING POLY LIDS

with water-displacing channels effectively shield your de-icing material from the elements. The domed shape provides increased material capacity.

ICE CHASER™ SPECIFICATIONS

	1.5 cu yd	1.8 cu yd	2.5 cu yd
Body Length	7'	8'	8'
Overall Length	108"	117"	117"
Width	63"	63"	63"
Height	44"	44"	51"
Weight (empty)	591 lb.	660 lb.	734 lb.
Conveyor Width	16¾"	16¾"	16¾"
Poly Spinner	15½"	15½"	15½"
Spreading Width	2' – 40'	2' – 40'	2' – 40'

OPEN POLY LIDS OVERLAP YOUR TRUCK BED, protecting it from material spillover during loading. Screening is provided by standard top screen.

VARIABLE SPEED CONTROL features multiplexing technology with a hopper empty alert and other self-diagnostics via LED light and audio signal.

MODEL LP-10

- 8.5 cubic foot capacity
- Adjustable feed gate with positive material flow shut-off
- 3-flight auger delivery system
- Adjustable material deflectors
- Receiver hitch mount with nylon straps

TAILGATE SPREADER SPECIFICATIONS
